

Let's grow something special.

Southern Selects

Raspberries

After years of perfecting growing standards, Southern Specialties proudly markets the finest raspberry grown south of the border. The Adelita variety grows under hoops and offers all of the best characteristics anyone would ask for in a raspberry.

Southern Selects premium raspberries, or as we like to call them, edible rubies, are delicious on their own or integrated into a number of dishes—parfait, oatmeal, salads, pies, you name it! They are excellent in sauces and salad dressings. Their bright color and distinct texture allow for luxurious presentations on the plate.

Availability

October-June

Storage & Handling

Warehouse Temperature:

34° F
