# Yellow Beefsteak Tomato

## Availability

Year-round

## Storage & Handling

Warehouse temperature:

55-65 °F

Humidity: 90-95%

Ethylene sensitive

*Southern Selects gourmet yellow tomatoes bring a ray of sunshine to every plate. The bright yellow tones contrast beautifully in recipes. We have selected varieties that bring you the best flavor and presentation profiles. Our yellow tomatoes have a milder flavor and lower acid content than red tomatoes. They are well suited for those trying to avoid high acidic foods. Generally too mild to withstand cooking, this yellow beefsteak variety is best served fresh, stuffed, or incorporated into salads, salsa, sandwiches, or juicing.*
