

Let's grow something special.

Southern Selects Mango

Southern Selects mangoes are a tropical delight, so fresh and fragrant that you'll need to share them. Our mango varieties include Tommy Atkins, Keitt, and Kent. One of the most popular fruits in the world, mangoes are juicy, sweet and just about perfect. Enjoy them ripe, preserved, grilled or pickled, to give variety a whole new meaning!

The flesh is an enticing combination of flavors that may include hints of peach, pineapple, and melon. The skin colors range from green to golden yellow to red, depending on the variety. Mangoes are a very versatile fruit. You can use them in salads, fruit drinks, salsas, or preserves. They also pair well avocados, papayas and other fruit.

Availability

Year-round

Storage & Handling

Warehouse Temperature:

50-55 °F

Ripening:

Look for fruit that is slightly soft to the touch when squeezed. The color does not indicate ripeness.
