Brussels Sprouts

Availability

Year-round

Storage & Handling

Warehouse temperature:

34 °F

Humidity: 95-100%

Do not mist

Southern Selects Brussels sprouts are trending in homes and grocery stores across the nation. Their flavor is unmatched by any other vegetable and they can be cooked up in a variety of ways—roasted, steamed, sautéed, or even freshly shaved. They have the appearance of small cabbages and are part of the same family of cruciferous vegetables that include cabbage, collards, broccoli, and kale.

Brussels sprouts are an excellent source of vitamins C and K, and are a good source of vitamins A, B and fiber. Try them in stews, salads, and in tacos! Southern Selects Brussels sprouts are packaged to provide the consumer with microwave convenience and delicious mealtime experiences.
