Southern Selects

English Peas

Availability

Year-round

Storage & Handling

Warehouse temperature:

34-36°F

90-95% humidity (out of box)

Do not mist

English peas grow inside a tough, fibrous pod that reveals pearl sized peas when opened. We select and package the best of these peas for our customers. The pod is not eaten, unlike sugar snaps or snow peas where you eat the entire pod.

Our peas are selected, harvested and shelled by hand to save you the time and labor. Enjoy 100% edible product that is ready-to-go and a fresh treat for the whole family. Recipes featuring English peas are adored by children and adults alike. They are sweet, nutritious, delicious and versatile. Our packaging offers convenient solutions for today's busy home makers.
