

Let's grow something special.

# Southern Selects Snow Peas

## Availability

Year-round

## Storage & Handling

Warehouse temperature:

34°F

The Snow Pea is valued for its edible pod which is flat and ideal for stir frying as it cooks evenly. Gourmet cooks prefer the Guatemalan peas for their deep green color, perfect size, and sweeter flavor. Guatemala is one of the world's largest producers of Snow peas.

The increasing popularity of contemporary Asian restaurants and fusion cooking have driven the growth of snow peas in both restaurant and retail sectors.

Snow peas can be enjoyed raw, sautéed or buttered. They are a perfect snack on the go, thanks to our convenient pack size, and taste great mixed in with your dinner. Snow peas are high in Vitamins A and C, Folate, iron and fiber.
